

TWO EXALTED BEINGS, YOGINIJI AND JET
BASKING IN THE GENTLE GLOW OF THEIR GURU SURYADEV,
THE SUN-GOD

YOGINIJI'S TRILOGY ON YOGA AND MEDITATION

COPYRIGHT: LORD VEER SIDDHA ASHRAM. MAURITIUS.

The phenomenon of incorruptibility, as yet unexplained by the normal laws of nature, is considered in all religions as signs of 'Divine Intervention'. To have such an event occurring in a country like Mauritius is indeed something extraordinary.

We have heard of 'miracles' happening in big countries of billions of inhabitants, like India etc. In Mauritius we have a tiny population of less than 1.3 million. We should understand our extreme privilege and luck to be witness of such a miracle in this tiny island lost in the vastness of the Indian Ocean.

At the Lord Veer Siddha Ashram we have the unique case of two such events happening at one place. The first one took place 28 years ago when Jet, a German shepherd, was removed intact after 5 months of being buried. Jet had been the constant companion of our Guru, Yogini Shubh Veer for almost ten years. Dr Bhuwanee, government veterinarian was invited to witness the surprising occurrence. It probably did not get the deserved recognition, because it concerned a non-human.

9TH JULY 1994. JET REMOVED FROM GRAVE AFTER 5 MONTHS

Humans are known and receive credit for the acts they perform during their lifetime. Rare are those souls who perform acts even after they have left their physical body. Above them all are the privileged few who can perform the impossible after their death. The laws of science could not explain the phenomenon of the intact dead body. Since that time, Jet has been kept inside the ashram.

On the 8th of August, 2022, the Guru of Lord Veer Siddha Ashram Yogini Shubh Veer (YOGINIJI) left her physical body. She was a born Siddha. She never had any human Guru. Yoginiji had the power to directly transmit Divine energy by 'Shaktipat'. She was also expert in all yogas. She knew more than 5,000 yoga postures, received directly during meditation from her Divine Guru, Suryadev, the sun-god.

Yoginiji was placed on a simple bed, in normal room conditions, without any means of preservation. Her body did not show any signs of decay, any odor etc. until burial in the ashram premises on the next new moon day, 27th August. She had been lying intact for the 20 days after passing away. Three medical doctors certified this unique occurrence.

The Ministry of Health gave special permission, after conducting an independent investigation of its own, for the Guru's body to be buried in the ashram premises. Yoginiji was buried together with Jet, at the very spot from where Jet had been removed 28 years before. In the meantime a shrine had been built there.

We are now having a 'Mahasamadhi Shrine' of two incorruptible bodies, Jet and Yogini Shubh Veer, one human and one non-human. This is indeed unique in the history of the world. The Lord Veer Siddha Ashram has converted the area around the shrine and opened it to the general public who will have direct access from the road. This miracle now places Mauritian Indian Diaspora at the forefront on the international scene. It is like a Divine Nobel Prize!

THE LAST MOMENT- YOGINIJI WITH JET IN HER EMBRACE

Jet and Yoginiji's intact state is the symbol of God's love for us. God is telling us: "I do exist!" It comes as a spiritual booster to one and all. Yoginiji and Jet came for an eternity and their spirit permeates the universe. They remain our pride and most precious possessions. They bestow upon all, Divine grace.

Death usually means the end. But Yoginiji and Jet testify to the opposite. Spiritually, as scientifically, they have indeed transcended karmic law to symbolize Divinity in its entire splendor. They transcend creed, race and color, going from this physical form to Holiness, defying all natural and scientific laws.
